KEY EVENTS HELD DURING THE YEAR

1. Inauguration of Ahmedabad Metro Rail Project Phase-1 by Hon'ble Prime Minister

Shri Narendra Modi Hon'ble Prime Minister of India inaugurated the Ahmedabad Metro Rail Project Phase-I on 30th September, 2022. The first train of Phase-I was flagged from Kalupur Underground Station. Hon'ble Prime Minister also enjoyed the ride of Ahmedabad Metro with children and other dignitaries on the day of inauguration. The entire network of 38.60 Kms catering metro services on East-West Corridor was opened for the Citizens of Ahmedabad from the day of 'Mahatma Gandhi Jayanti' on 2nd October, 2022 and services on North-South Corridor commenced from 6th October, 2022 onwards.

2. Visit of Commissioner of Metro Railway Safety (CMRS)

The inspection process of Ahmedabad Metro Rail Project Phase-1 was commenced by CMRS in August, 2022 for East West section and inspection of North South section was done in September, 2022.

GMRC (Gujarat Metro Rail Corporation) diligently addressed and complied with the observations raised by CMRS. Accordingly, GMRC was authorized to open both sections for general public post completion of inspection process.

3. Special Train Trips during IPL-2023 Matches

The Indian Premier League (IPL)-2023 matches were played at Narendra Modi Stadium, Motera, Ahmedabad from 31st March, 2023. In view of this, special trains trips were planned with special fare for convenience of the audience. The last train trips were operated at 01.00 AM post completion of matches. Due to this facility, majority of audience preferred to travel to stadium by Ahmedabad Metro. Around 75,190 passengers travelled by Ahmedabad Metro on 31st March, 2023. Further, GMRC carried out the train wrapping works for the 'Gujarat Titans' team during IPL match, which contributed to the Non-Fare Box revenue as well.

4. Supervision and Appraisal Mission of AFD & KfW

Ahmedabad Metro Rail Project Phase-II and Surat Metro Rail Project Phase-I are co-funded by Agence Francaise De Developpement (AFD), France and Kreditanstalt für Wiederaufbau (KfW), Germany.

The supervision mission of AFD and KfW was held in February, 2023 with an objective to assess the physical progress of the works through site visits, review of implementation schedule, procurement plan, status of detailed design studies, list of tenders under preparation and awaited NoCs, discussion on Metro+ components, financial aspects and operational aspects.

Further, the mission also delved on the issues of Environmental & Social (E&S) aspects such as updated E&S Safeguard documentation, measures undertaken by GMRC to minimize social impacts, climate change mitigation, draft E & S Commitment Plan, Monitoring and Evaluation framework of the project including legal aspects.

5. Stakeholder Consultation and Public Meetings at Surat

During the year under review, with an aim to create awareness about the project and understand its impact on various stakeholders of the society, various public consultation meetings were conducted for Surat Metro Rail Project with Project Affected Parties, Non-Affected People, Government Departments, local NGOs, etc.

6. Hindi Diwas Celebrations

Every year 'Hindi Diwas' is celebrated on 14th of September. It marks the day on which Hindi language was declared as the official language of Union of India.

Accordingly, Hindi Diwas was celebrated at GMRCL during the year on 14th September, 2022 through online mode for all the employees of Ahmedabad Phase-I & II and Surat Project. Various activities like, Speech, Poetry recitation, Word games/phrase completion, quiz, etc were held as a part of promotion of national language within the organization. The event witnessed good number of participation from employees of various departments. In order to encourage participations, the winners were awarded with prize.

7. Azadi ka Amrit Mohatsav - Run for Smart Mobility

As a part of commemoration of 75 years of Independence and ‘Azadi ka Amrit Mahotsav’ celebrations, a Run for Smart Mobility event was organized on 3rd April, 2022. The participants were flagged off from Mahatma Mandir Gandhinagar for a 7 kilometres run on a circular route. The event witnessed good number of participation from GMRCL employees and other health enthusiasts. The event was organised to promote and adopt healthy life style. Participants were also awarded with medals and T-shirts.

II. OPERATIONAL PERFORMANCE: AHMEDABAD METRO PHASE-I

The F.Y. 2022-23 was a year of enthusiasm and achievements. With the receding waves of COVID-19, the world was freed from the restrictions imposed by the pandemic and resumed normalcy. This proved as a great enabler for your company in

expediting and achieving the goal of operationalizing the Ahmedabad Metro Rail Project Phase-I across the length and breadth of Ahmedabad City during the year.

Shri Narendra Modi, Honourable Prime Minister inaugurated Ahmedabad Metro Rail Project Phase-I on 30th September, 2022 and flagged the first train from Kalupur underground Metro Station.

The Metro Operations were opened for the citizens on the day of 'Mahatma Gandhi Jayanti' i.e. with effect from 02nd October, 2022.

The ridership response during the year has been very encouraging. During the year under review, revenue from metro operations was ₹1174.38 lakhs as against ₹21.86 lakhs the previous financial year.

GMRCL is confident that the ridership will further rise with increase in number of train trips and extended hours of operations on both corridors. Your management is making constant efforts to make Ahmedabad Metro the most preferred public transport of Ahmedabad City.

a. Details of Ridership during Financial Year 2022-23 is as below:

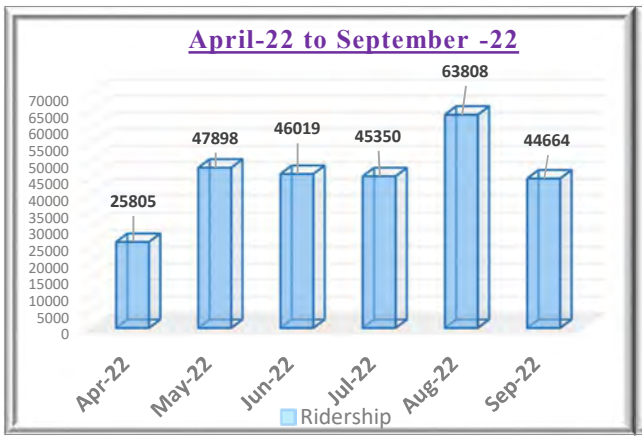

Chart: 1 Ridership Priority Reach

III. DIVIDEND & TRANSFER TO GENERAL RESERVE

During the year under review, considering absence of profits, your Board of Directors have not recommended dividend for the year ended 31st March, 2023. Therefore, no amounts were required to be transferred to the General Reserve.

IV. GLIMPSES OF PROJECT PROGRESS

Your Company has been entrusted with the responsibility of implementation and operation & maintenance of following projects:

A. Ahmedabad Metro Rail Project, Phase-I
B. Ahmedabad Metro Rail Project, Phase-II
C. Surat Metro Rail Project Phase-I

Project wise progress details are as given below:

A. AHMEDABAD METRO RAIL PROJECT, PHASE-I

Ahmedabad Metro Rail Project, Phase-I have Metro Rail network for the following routes:

Corridor	Elevated		Underground	
	No. of Stations	Route Length (in Kms.)	No. of Stations	Route Length (in Kms.)
North – South Corridor	15	19.13	-	-
East – West Corridor	13	14.40	4	6.5
Total	**28**	**33.53**	**4**	**6.5**

Over all progress of project:

Description	Total Length (in Kms.)	Work Completed (in Kms.)	Work in Progress (in Kms.)
Elevated Corridor	33.53	32.10	1.43
Underground Corridor	6.50	6.50	0.00
Total	40.03	38.60	1.43

1. East-West Corridor (Thaltej Gam to Vastral Gam)

1.1 Eastern Reach (Elevated) – Vastral Gam to Apparel Park

The construction of the project started with the contract for building the Viaduct from Vastral Gam to Apparel Park (priority reach 1) being awarded in February 2015. The commercial operations on the priority reach section began for 2 stations from March 9th, 2019, with an entry/exit point on both sides of the station. Subsequently, the construction of the remaining 4 stations was finished by December 2020. Following this, permission was granted to operate the metro at an increased speed. Additionally, 19 more entry and exit points were progressively commissioned in the Eastern Reach of metro system.

This progress indicates a significant step towards improving public transportation and connectivity in Ahmedabad city.

The route encompasses a stretch that passes through a total of six stations: Vastral Gam, Nirant Cross Roads, Vastral, Rabari Colony, Amraiwadi, and Apparel Park Stations. Notably, operational activities have been successfully initiated at each of these stations.

All the above six stations were operational during the year under review.

1.2 Apparel Park Depot

The Apparel Park Depot stands as a fully functional establishment catering to the stabling requirements of the metro trains traversing the East-West Corridor. This facility boasts a comprehensive workshop, serving as a central nucleus for the Operation and Maintenance of the metro trains on the network. It houses a covered stabling shed that is designed to accommodate 18 train sets, each comprising six cars. This depot serves as an integral hub, playing a pivotal role in ensuring seamless operations and upkeep of the metro train fleet.

1.3 Eastern Reach (Underground) – Tunnel from Apparel Park to Shahpur

The intricate task of tunneling beneath the historic heart of old city of Ahmedabad, spanning a distance of 6.5 kilometers, has been successfully accomplished. This stretch required utmost precision and care, owing to presence of numerous heritage monuments that adorn this cherished part of the city. The meticulous execution of tunneling process in this stretch reflects a deep appreciation for historical significance and underscores our commitment to preserve rich cultural heritage of the city.

a. Underground Package 1 (Kankaria to Kalupur)

The Kalupur Metro Station has been made fully operational during the year. This station located underneath the Ahmedabad Railway Stations acts as a major connecting node for the inter-state and intra-state travellers. Further, due the central location of this station in old Ahmedabad city area, it provides great relief to the commuters in terms of time saving and vehicular pollution due to traffic congestion. Your Company is taking diligent efforts to complete the station works at Kankaria East by December, 2023.

The integration of Kalupur Station with both the Kalupur Railway Station and the National High-Speed Rail Project stands as a testament to a comprehensive Multi Modal Integration Plan. This strategic approach not only enhances the efficiency and accessibility of the transportation network but also underscores a commitment to holistic urban connectivity and mobility.

b. Underground Package 2: Gheekanta to Shahpur

The Gheekanta and Shahpur underground metro stations have been successfully brought into full operational status. The Shahpur metro station serves as a pivotal link, seamlessly connecting the metro network to the western part of Ahmedabad City. This strategic connection significantly enhances accessibility and opens up new avenues for efficient urban transportation in the city.

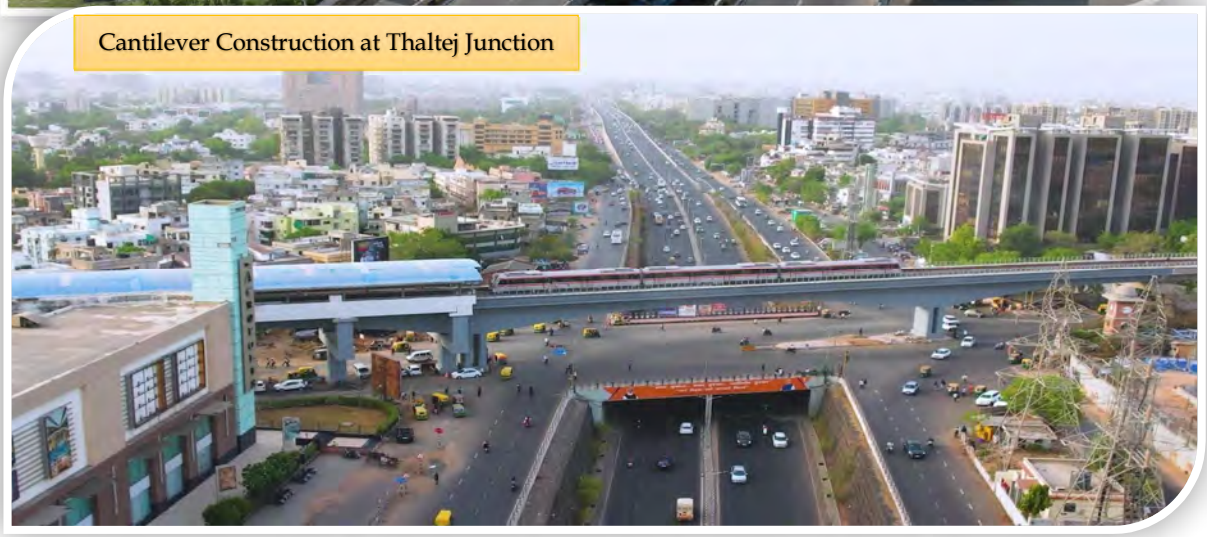
Wall Cladding at Shahpur Station

Gheekanta Station

1.4 Western Reach (Elevated) – Thaltej Gam to Shahpur Ramp

The western reach encompasses a total of seven stations, namely Thaltej Gam, Thaltej, Doordarshan Kendra, Gurukul Road, Gujarat University, Commerce Six Road, and SP Stadium. As of now, all of these stations, except for Thaltej Gam, have been brought into full operational functionality. This progress underscores a significant step towards enhancing urban transportation and seamless connectivity between the eastern and western part of Ahmedabad City.

Sabarmati River Bridge



The construction of the viaduct segment spanning from Thaltej Gam to Thaltej, covering a distance of 1.43 kilometers, is currently in progress. Simultaneously, work is also underway for the development of the Thaltej Gam Station. Necessary efforts are directed towards achieving completion by December, 2023.

2. North – South Corridor (APMC to Motera Stadium)

2.1 Package 1 (Elevated) – APMC to Shreyas

The construction of 4.13-kilometer viaduct, spanning from Gyaspur Depot to APMC and further to Shreyas (Package 1), achieved successful completion. This route traverses through four stations: APMC, Jivraj, Rajiv Nagar, and Shreyas. Importantly, all of these stations have been brought into full operational status, which augments the networks efficiency and outreach to all corners of Ahmedabad City.

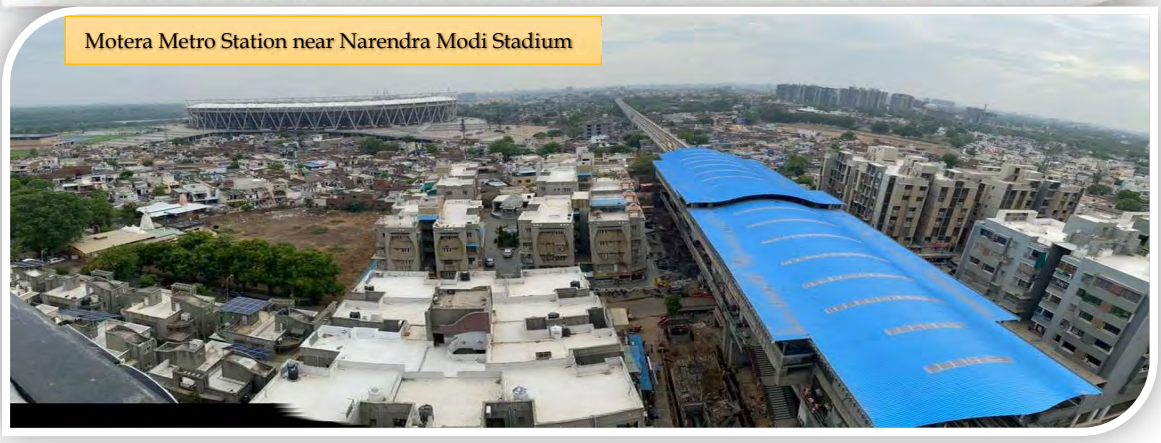
2.2 Package 2 & 3 (Elevated) – Shreyas to Ranip

This elevated stretch from Shreyas to Ranip is spanning 7.55-kilometer has been successfully completed and operationalized during the year under review. It predominantly aligns with the Ahmedabad - Bhavnagar Railway line over the Railway Land. Along this route, a total of six stations viz. Paldi, Gandhigram, old High Court, Usmanpura, Vijay Nagar, and Vadaj are established. Importantly, all of these stations are serving as vital points of urban connectivity within Ahmedabad City.

The Old High Court Station holds a distinctive position as an interchange station, facilitating seamless transfers between both the North-South and East-West Corridors. The Gandhigram Station, has been designed as an integrated structure that accommodates a Railway Station on the Ground Floor and First Floor, with the Metro Station situated above.

2.3 Package 4 (Elevated) – Ranip to Motera

The package 4 spans over 4.89-kilometer encompassing five stations in its route: i.e. Ranip, Sabarmati Railway Station, AEC, Sabarmati, and Motera Stadium. All stations on this stretch have been operationalized during the year under review, except Sabarmati Railway Station, which is currently in an advanced stage of development. Necessary efforts are directed towards achieving completion by March, 2024.



2.4 Gyaspur Depot – Progress of Depot

To cater the stabling requirements of the North-South Corridor, a depot spanning 20 hectares of land at Gyaspur has been successfully completed. This depot serves as a comprehensive facility, housing a fully equipped workshop and functioning as a central hub for the Operation and Maintenance of metro trains running on the network. Notably, it features a covered stabling shed that can accommodate up to 20 train sets, each comprising six cars in length.

Gyaspur Depot

2.5 Station Art Work

Towards the central theme of the rich heritage and culture of Ahmedabad city, around 23 (twenty-three) stations of Ahmedabad Metro Rail Project Phase-1 has been cladded with intricate art work depicting the iconic monuments and festivities of the city.

Doordarshan Station

B. AHMEDABAD METRO RAIL PROJECT, PHASE – II

The Phase-II is an extension of the Phase-I that aims to connect the twin cities Ahmedabad and Gandhinagar. Ahmedabad Metro Rail Project, Phase-II will have Metro Rail network on following routes:

INDEPENDENT AUDITOR'S REPORT

To,
The Members of
Gujarat Metro Rail Corporation Limited,
Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the accompanying Ind AS financial statements of **Gujarat Metro Rail Corporation Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and notes to the financial statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "The Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, of the state of affairs (financial position) of the Company as at March 31, 2023 and its loss (financial performance including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the ***Auditor's Responsibilities for the Audit of the Ind AS Financial Statements*** **section of our report**. We are independent of the Company in accordance with the *Code of Ethics* issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the Ind AS financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Information Other than the Ind AS Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, but does not include the Ind

AS financial statements and our auditor's report thereon. The Board's Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Ind AS financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Final Annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions as per applicable laws and regulations.

Responsibilities of Management and those charged with Governance for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material

misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. And we have placed reliance on resolution plan submitted by company to its bankers. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Ind AS financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all

relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Ind AS financial statements of the current period. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1) As required by Section 143(3) of the Act, we report that:

a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

ANNEXURE "A"

TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 (f) under 'Report on Other Legal and Regulatory Requirements' section of our Independent Auditor's Report, of even date, to the members of Gujarat Metro Rail Corporation Limited on Ind AS Financial Statements for the year ended 31st March 2023)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Gujarat Metro Rail Corporation Limited** ("the Company") as of March 31, 2023 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls over financial reporting.

DGSM & Co. Chartered Accountants FRN : 101606W AHMEDABAD

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

(1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and

(3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us,further described in the ***Auditor's Responsibilities*** **section of this report,** limited documentation for identification of risk description with control categories of its process, we have considered other related documents available in this regards, for obtaining sufficient understanding for its process and controls and based on the above the Company has in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of Internal Controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Note 1: Significant Accounting Policies

The note provides a list of the significant Accounting Policies adopted by the company in preparation of the Financial Statements. Accounting policies have been consistently applied to all the years presented, unless otherwise stated.

1.1 Statement of compliance

These financial statements have been prepared in accordance with the Indian Accounting Standards (referred to as "Ind AS") as prescribed under Section 133 of the Companies Act, 2013 read with the Companies (Indian Accounting Standards) Rules as amended from time to time. Further, Guidance Note/ Announcement issued by The Institute of Chartered Accountants of India (ICAI) are also considered wherever applicable. The company has uniformly applied the accounting policies during the period presented.

1.2 Basis of preparation

The financial statements have been prepared on a historical cost convention on accrual basis, except for the followings assets and liabilities which have been measured at fair value amount:

- Certain financial assets and liabilities measured at fair value
- Defined benefit plans – plan assets measured at fair value

Historical cost is generally based on the value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. All assets and liabilities have been classified as current and non-current considering operating cycle period of 12 months.

These financial statements have been prepared in Indian Rupee (INR/ ₹) which is the functional currency of the Company and all values are rounded to the nearest lakhs (₹1,00,000), except when otherwise indicated.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard required a change in the accounting policy hitherto in use. The company has generally followed the policy and best practices as prevalent in the industry.

The significant accounting policies used in preparation of the financial statements have been discussed in the respective notes.

The financial statements were authorised for issue in accordance with a resolution of the meeting of Board of Directors dated 04/08/2023.

1.3 Use of Estimates and Management Judgement

The preparation of the financial statements are in conformity with Ind AS which requires the management to make estimates, judgements and assumptions that affect the reported amounts of revenues and expenses during the reported period and the reported amount of assets and liabilities (Including contingent liabilities) as on the date of financial statement.

Management believe that the estimates used in preparation of financial statements are prudent and reasonable. Future results could differ from these estimates. Difference between actual results and estimates are recognised in the period in which results are crystallised.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to the accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the financial statements.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year are included in the following notes:

Note 20 Current/deferred tax expense
Note 21 Contingent liabilities and assets
Note 23(B) Measurement of defined benefit obligations

1.4 Foreign currencies

1.4.1 Functional and Presentation Currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). These financial statements are presented in Indian rupee (INR), which is the functional and presentation currency of the Company. Any currency other than functional currency of the entity is foreign currency.

DGSM & Co. Chartered Accountants FRN : 101606W AHMEDABAD

Gujarat Metro Rail Corporation (GMRC) Limited A Joint Venture of Govt. of India & Govt. of Gujarat

1.4.2 Transactions and balances

Foreign currency transactions are translated into functional currency using the exchange rates at the dates of transactions. Foreign exchange gain / (loss) resulting from the settlement of such transactions and from the translations of monetary assets and liabilities denominated in foreign currencies at the year-end exchange rates are the Gain / Loss resulting from such translation are included in the profit & loss. Foreign exchange differences regarded as an adjustment to borrowing costs are presented as borrowing costs. All other foreign exchange [gain] / (loss) are presented in the statement of profit and loss account on a net basis either as other expense / other income.

Non-monetary items that are measured at fair value in a foreign currency are translated using exchange rates at the date when fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain / (loss). Gain/Loss on transactions of long-term liabilities incurred to acquire fixed assets is treated as an adjustment to the carrying cost of fixed assets.

1.5 Fair value measurement

The company measures certain financial instruments at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability
  Or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The company's management determines the policies and procedures for both recurring fair value measurement and for non-recurring measurement. External valuers are involved for valuation of significant assets. Involvement of external valuers is decided upon by the management after discussion with and approval by the company's Audit Committee. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. Valuers are normally rotated every three years. The management decides, after discussions with the Company's external valuers, which valuation techniques and inputs to use for each case.

At each reporting date, the management analyses the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per the company's accounting policies. For this analysis, the management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The management, in conjunction with the company's external valuers, also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable on yearly basis.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

This note summarises accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

- Disclosures for valuation methods, Significant accounting judgements, estimates and assumptions
- Quantitative disclosures of fair value measurement hierarchy
- Financial instruments (including those carried at amortised cost)

1.6 Property, Plant and Equipment

Property, plant and equipment is stated at cost of acquisition / construction, net of accumulated depreciation and impairment losses, if any. Costs directly attributable to acquisition are capitalized until the property, plant and equipment are ready for use, as intended by management.

Expenditure incurred on enabling assets viz utility diversion, rehabilitation and resettlement which is compulsorily required to be incurred and directly attributable to the construction of MRTS (Metro Rapid Transport System) is capitalised with the respective identifiable assets.

Capitalisation of assets has been done for assets which are identified as ready to use by the management of the company.

Amount Paid for acquisition of private land is capitalised upon receiving original title after registration or upon issuance of award by the competent authority. Any enhanced compensation demanded by the land owners shall only be accounted based on actual decision of courts or the decision of the private negotiation committee accepted by the management.

Subsequent expenditure, including replacement costs where applicable, incurred for an item of property plant and equipment are added to cost of assets only if they increase the future benefits from the existing asset beyond its previously assessed standard of performance and the cost of the item can be measured reliably. The carrying amount of any assets or component of assets accounted for as a separate asset is de-recognised when replaced. All other repairs and maintenance expenditure are charged to profit or loss during the reporting period in which they are incurred.

The cost also includes interest on borrowings attributable to acquisition of qualifying fixed assets up to the date on which the assets is ready for its intended use and net of any trade discounts and rebates and other incidental expenses and an initial estimate of the costs of dismantling, removing the item and restoring the site on which it is located, if any. In case of asset put to use, where final settlement of bills is yet to be effected, capitalisation is done on provisional basis subject to necessary adjustments in the year of final settlement.

Spares having useful life of more than one year are capitalised under respective heads.

1.6.1 Component accounting of assets:

Components having different useful life as compared to main assets and having it's carrying value more than 10% in relation to the overall carrying value of the assets or ₹ 10,00,000 whichever is lesser are depreciated separately. The Company has identified, reviewed, tested and determined the componentisation of the all assets purchased as well as capitalised during the year. Land, Track Work (Permanent Way) and Intangible Assets are not componentised as identification of separate components is impracticable.

Remaining components or insignificant parts have been combined together with the main assets.

1.6.2 Capital Work in Progress:

Capital Work in Progress includes expenditure incurred on assets, which are yet to be commissioned and also includes capital inventory. The expenditure will be kept as Capital Work-in-Progress (CWIP) till the defined project phase is completed after which the same will be transferred / allocated to the identifiable Fixed Assets.

All the directly identifiable and ascertainable expenditure, incidental and related to construction incurred during the period of construction on a project, till it is commissioned, is kept as Capital

DGSM & Co. Chartered Accountants FRN : 101600W AHMEDABAD

Gujarat Metro Rail Corporation (GMRC) Limited Joint Venture of Govt. of India & Govt. of Gujarat

work in progress (CWIP) as Incidental Expenditure pending capitalisation and after commissioning the same is transferred / allocated to the respective "Property, Plant and Equipment".

Income pertaining to Sale of tender documents is netted-off adjusted against expenditure incurred during construction period. Liquidated damages (LD) recovered is adjusted netted-off against expenditure incurred during construction period. No income tax provision has been made on liquidated damages as the same has been considered as capital receipt.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date are classified as capital advances under other non- current assets.

The cost and related accumulated depreciation are eliminated from the financial statements upon sale or retirement of the asset.

All incidental expenditure related to project is allocated to respective projects on the systematic allocation basis.

1.6.3 Allocation of Interest During Construction:

Interest on loans for funding specified component/project as per terms of loan is capitalised as interest during construction (CWIP) every year.

Interest during construction in respect of qualifying assets commissioned during the year is allocated in the ratio which the value of commissioned assets bears to the qualifying CWIP as at the end of the year.

1.6.4 De-recognition

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is derecognised.

1.6.5 Depreciation

Depreciation on property, plant and equipment except freehold land is provided on the straight-line method over useful lives of the assets as prescribed under Schedule II to the Companies Act 2013 except for the assets mentioned hereunder. Based on the management estimates the residual value of the assets has been considered as 5% in case of capitalised assets of Ahmedabad Metro Phase-1 Project and rest of the assets as Nil.

In case of following assets, depreciation has been provided based on technical estimation of the useful life of the assets:

Nature of Assets	Useful Life
Viaduct	60 Years
Rolling Stock	35 Years

D G S M & Co. Chartered Accountants FRN : 101308W AHMEDABAD

Gujarat Metro Rail Corporation (GMRC) Limited A Joint Venture of Govt. of India & Govt. of Gujarat

Permanent Way	30 Years
Containers and Security Cabins	5 Years
Signage	3 Years
Solar Systems, Power Generator Set, Motors & GPS Instrument	5 Years
Barricading	5 Years
Mobile Handset costing more than Rs.5000 provided to employees	2 Years
Depot Building (factory and office)	60 Years
Station Building	60 Years
Escalators & Elevators	30 Years
Telecom Equipment	15 Years
Automatic Fare collection System	10 Years
Platform Screen Door and Signaling Equipment	15 Years

Library Books, CD and Assets costing Rs.5000 or less (excluding immovable assets) are not capitalised and recognised as an expense in the statement of profit and loss account in the year of acquisition.

In case of lease hold improvements, depreciation has been provided considering either tenure of agreement or 5 years whichever is less.

One time Premium/Rentals paid by GMRC to the land allotting agency towards use of such leasehold land for the lease term as may be specified in relevant authority's GR is amortised over such period on straight line basis.

In case the leasehold asset is vacated earlier than tenure of agreement, the total unamortized balance will be written off to the Statement of Profit & Loss in the year in which the premise is vacated.

The management believes that the useful life as given above best represent the period over which management expects to use these assets. Hence the useful lives for these assets are different from the useful lives as prescribed under Part C of Schedule II to the Companies Act 2013 on the basis of technical estimation.

Depreciation on assets purchased/sold during a period is proportionately charged for the period of use with reference to date of addition / disposal.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

1.7 Leases

1.7.1 Company as a lessee:

At the date of commencement of the lease, the company recognises a Right-of-Use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short term leases) and leases of low value assets.

DGSM & Co. Chartered Accountants FRN : 101606W AHMEDABAD

Gujarat Metro Rail Corporation (GMRC) Limited A Joint Venture of Govt. of India & Govt. of Gujarat

For short term and leases of low value assets, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease. Lease charge payable against each lease agreement over the total tenure of lease period above Rs.1.00 crore is considered as material and accordantly this standard is applied.

The ROU assets are initially recognised at cost, which consist of initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives.

The ROU Assets are subsequently measured at cost less accumulated depreciation and impairment losses, if any.

The ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the Effective Interest Rate (EIR). The lease liability is subsequently re-measured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

A lease liability is re-measured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The re-measurement normally also adjusts the leased assets.

The Lease liability and ROU assets have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

In respect of assets acquired on lease by paying full consideration, being the transaction price, such assets have been recognised under the respective asset head at transaction price and such consideration paid amortised over lease term. In other cases, i-e, where lease consideration is deferred over lease term, ROU asset is recognised with corresponding lease liability if the asset meets recognition criteria of Ind AS 116.

ROU Asset and Lease liability are derecognised upon completion of lease term and if such lease is cancelled prior to completion of term, the balances pertaining to said accounts are adjusted and any further adjustment, if any required is made in statement of profit and loss.
Lease modifications, if any, are accounted in manner as prescribed in Ind AS 116.

1.7.2 Company as a lessor:

Leases in which the Company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Rental income, if any, from operating lease is recognized on a straight-line basis over the term of the relevant lease except the case where incremental lease reflects inflationary effect and lease expense is accounted in such case by actual rent for the period.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership are transferred from the company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

Gujarat Metro Rail Corporation (GMRC) Limited A Joint Venture of Govt. of India & Govt. of Gujarat

1.8 Borrowing cost

Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs. Borrowing cost that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the assets for its intended use or sale. Borrowing cost of the funds utilized generally for acquisition, construction or production of qualifying assets is allocated to the qualifying assets by applying a capitalization rate to the expenditures made during year to that assets. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Other borrowing cost are expensed in the period in which they are incurred. Investment income earned on the temporary investment of specific borrowing pending their expenditure on qualifying assets is deducted from the borrowing cost eligible for capitalisation, if they are being earned during active development of such qualifying asset.

1.9 Intangible Assets

Intangible assets are stated at cost less accumulated amortisation and impairment. Intangible assets are amortized over their respective individual estimated useful life on straight line basis, from the date they are available for use. Amortisation method and useful lives are reviewed at the end of each financial year.

1.9.1 Amortisation:

Intangible assets including software which is not an integral part of related hardware are amortised on Straight Line Method over a period of legal right to use or 5 years whichever is earlier.

Way Leave charges paid to Railways are recognised as intangible assets and amortised on straight-line method over the period of 70 years.

1.10 Impairment of non-financial assets

Intangible assets and Property, Plant and Equipment are evaluated for recoverability whenever events or change in circumstances indicate that their carrying amount may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. higher of the fair value less cost to sell and value in used) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other asset. In such case, the recoverable amount is determined for the CGU to which the asset belongs.

If such assets are considered to be impaired, then impairment to be recognised in the Statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceed the estimated recoverable amount of asset.

1.11 Revenue Recognition

1.11.1 Recognition and Measurement

Revenue is recognised when the Company satisfies performance obligation as per the identified contract(s) with a customer. Revenue is measured at allocated transaction price to the performance obligation as per the identified contract(s) with customer. The amount of consideration to which the Company is entitled in exchange for transferring goods or services is considered as transaction price while recognition of revenue. Amount disclosed as revenue are net of returns, trade allowances, rebates, taxes, and amount collected on behalf of third parties.

The accounting policies for the specific revenue streams of the company as summarized below:

1.11.2 Fare Box Revenue:

Income from fare collection is recognised on the basis of use of tokens and group booking tickets.

1.11.3 Interest income:

Interest on short term deposits with banks and/ or Financial Institution is recognised as income in the statement of profit and loss, using effective interest rate method.

1.11.4 Other Incidental income:

Income from sale of tender documents and sale of scrape is recognised as income on accrual basis.

1.12 Financial instruments – initial recognition and subsequent measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

1.12.1 Financial assets

(i) Initial recognition and measurement of financial assets

The company recognizes financial assets when it becomes a party to the contractual provision of the instruments. At initial recognition, the Company measures a financial asset at its fair value plus or minus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition or issue of the financial asset.

(ii) Subsequent measurement of financial assets

For purposes of subsequent measurement, financial assets are classified in three categories:

- Financial assets at amortised cost

D G S M & Co. Chartered Accountants FRN : 101606W AHMEDABAD

Gujarat Metro Rail Corporation (GMRC) Limited A Joint Venture of Govt. of India & Govt. of Gujarat

- Financial assets at fair value through other comprehensive income (FVTOCI)
- Financial assets at fair value through profit or loss (FVTPL)

The Company classifies its financial assets in the above-mentioned categories based on:

- The Company's business model for managing the financial assets, and
- The contractual cash flows characteristics of the financial asset.
- Financial assets at amortised cost:

  A financial asset is measured at amortised cost if:
  - the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows, and
  - the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

- **Financial assets at fair value through other comprehensive income**

  A financial asset is measured at fair value through other comprehensive income if:
  - the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, and
  - the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

  Financial assets included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the P&L. On de-recognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to P&L. Interest earned whilst holding FVTOCI financial asset is reported as interest income using the EIR method.

- **Financial assets at fair value through profit or loss**

  FVTPL is a residual category for financial assets. Any financial asset, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

  In addition, the Company may elect to designate a financial asset, which otherwise meets amortized cost or fair value through other comprehensive income criteria, as at fair value through profit or loss. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Company has not designated any debt instrument as at FVTPL.

After initial measurement, such financial assets are subsequently measured at fair value with all changes recognised in Statement of profit and loss.

(iii) De-recognition of financial assets

A financial asset is derecognised when:

- the contractual rights to the cash flows from the financial asset expire,
  or
- The Company has transferred its contractual rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

(iv) Impairment of financial assets

For recognition of impairment loss on financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events on a financial instrument that are possible within 12 months after the reporting date.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss (P&L). This amount is reflected in a separate line under the head "Other expenses" in the P&L. The balance sheet presentation for various financial instruments is described below:

- Financial assets measured as at amortised cost: ECL is presented as an allowance, i.e. as an integral part of the measurement of those assets in the balance sheet. The allowance

reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

1.12.2 Financial Liabilities

(i) Initial recognition and measurement of financial liabilities

The company recognizes financial liabilities when it becomes a party to the contractual provision of the instruments. All financial liabilities are recognised at fair value on initial recognition. Transaction costs that are directly attributable to the acquisition or issue of financial liabilities, which are not at fair value through profit or loss, are deducted from the fair value on initial recognition.

(ii) Subsequent measurement of financial liabilities

The subsequent measurement of financial liabilities depends on their classification, as described below:

- **Financial liabilities at fair value through profit or loss**

  Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

  Gains or losses on liabilities held for trading are recognised in the profit or loss.

- **Loans and Borrowings**
  This is the category most relevant to the Company. After initial recognition, interest-bearing and interest-free borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

  Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

(iii) De-recognition of financial liabilities

A financial liability (or a part of a financial liability) is derecognised from its balance sheet when, and only when, it is extinguished i.e. when the obligation specified in the contract is discharged or cancelled or expired.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a

D G S M & Co. Chartered Accountants FRN : 101606W AHMEDABAD

Gujarat Metro Rail Corporation (GMRC) Limited Gujarat Maitri Vanture of Govt. of India & Govt. of Gujarat

new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

1.12.3 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the group or the counterparty.

1.13 Cash and cash equivalent

Cash and cash equivalent include cash in hand, demand deposit with bank and other short-term deposits with a maturity of three months or less from the date of acquisition, which are subject to an insignificant risk of changes in value.

1.14 Government Grant

Government grants are recognised where there is reasonable assurance that the grant will be received, and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

The Company recognised the interest free subordinate debt at fair value on initial recognition which differ from its transaction value. The difference between the transaction value and fair value is recognised as Government grant since it represents as assistance received from government in the form of waiver of interest. As the financial support from the government is for the capital expenditure of development of infrastructure for Ahmedabad Metro Rail Project i.e. Grant related to the non-current assets, the benefits is recognised in the statement of Profit & Loss account over the useful life of the assets in the proportions of depreciation expense on the assets.

1.15 Taxation

Tax expenses is the aggregate amount included in the determination of profit or loss for the period in respect of current tax (i.e. amount of tax for the period determined in accordance with the Income Tax Law) and deferred tax (reflecting the tax effects of timing differences between accounting income and taxable income for the period). Income tax expenses are recognised in statement of profit or loss except tax expenses related to items recognised directly in reserves (including statement of other comprehensive income) which are recognised with the underlying items.

DGSM & Co. Chartered Accountants FRN : 101606W AHMEDABAD

Gujarat Metro Rail Corporation (GMRC) Limited Joint Venture of Govt. of India & Govt. of Gujarat

1.15.1 Current Tax

The current tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period i.e. as per the provisions of the Income Tax Act, 1961, as amended from time to time. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Advance taxes and provisions for current income taxes are presented in the balance sheet after off-setting advance tax paid and income tax provision arising in the same tax jurisdiction for relevant tax paying units and where the Company is able to and intends to settle the asset and liability on a net basis.

1.15.2 Deferred Tax

Deferred tax is provided in full on temporary difference arising between the tax bases of the assets and liabilities and their carrying amounts in financial statements at the reporting date. Deferred taxes are recognised in respect of deductible temporary differences being the difference between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods, the carry forward of unused tax losses and the carry forward of unused tax credits.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised, or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses. In case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit, deferred tax assets are not recognised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Any tax credit available including Minimum Alternative Tax (MAT) under the provision of the Income Tax Act, 1961 is recognised as deferred tax to the extent that it is probable that future taxable profit will be available against which the unused tax credits can be utilised. The said asset is created by way of credit to the statement of profit and loss and shown under the head deferred tax asset.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

1.16 Employee Benefits

Defined benefit plan

Gratuity liability is a defined benefit obligation and is computed at the end of each financial year on the basis of an actuarial valuation by an actuary appointed for the purpose as per projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on the government bonds.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Re measurement gains and losses arising from experience adjustment and changes in the actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in the retained earnings in the Statement of changes in equity and in the Balance Sheet. Changed in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in statement of profit and loss as past service cost.

Defined contribution plan

The company pays provident fund contributions for eligible employees to Government administered provident funds as per local regulations. The company has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense during the period in which the employee renders the related service.

Short Term Employee Benefits

All employee benefit payable within 12 months of service such as salaries, bonus, ex-gratia, medical benefit etc. are recognised in the year in which the employees render the related service and are presented as current employee benefit obligations. It is to be provided at undiscounted amount during the period based on the service rendered by the employees.

DGSM & Co. Chartered Accountants FRN : 101606W AHMEDABAD

Gujarat Metro Rail Corporation (GMRC) Limited A Joint Venture of Govt. of India & Govt. of Gujarat

Other long-term employment benefits:

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by the employees up to the end of reporting period using the projected unit credit method. The benefits are discounted using the market at the end of the reporting period that have terms approximating to the terms of related obligation.

The obligation is presented as current liabilities in the balance sheet if the Company does not have an unconditional right to defer settlement for at least 12 months after the reporting period, regardless of when the actual settlement is expected to occur.

1.17 Earnings per share

Earnings Per Share (EPS) is calculated by dividing the profit / loss for the period attributable to Equity Shareholders by the weighted average number of equity shares outstanding during the period. Earning considered in ascertaining the EPS is the net profit for the period less any attributable tax thereto for the period.

1.18 Non-current assets held for sale and discontinued operation

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell. Non-current assets are not depreciated or amortized while they are classified as held for sale. Non-current assets classified as held for sale are presented separately from the other assets in the balance sheet.

A discontinued operation is a component of the Company that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single co-ordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the statement of profit and loss.

An impairment loss for discontinued operation and/ or non-current assets held for sale is recognized for any initial or subsequent write-down of the asset to fair value less costs to sell.

1.19 Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Provisions are measured at management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period and are not discounted to present value. The estimates of outcome and financial effect are determined by the judgment of the management, supplemented by experience of similar transactions and, in some cases, reports from independent experts.

DGSM & Co. Chartered Accountants FRN : 101606W AHMEDABAD

Gujarat Metro Rail Corporation (GMRC) Limited A Joint Venture of Govt. of India & Govt. of Gujarat

Contingents liabilities are disclosed when there is possible obligation arising from the past events, existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company or a present obligation that arise from past event where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

A contingent asset is disclosed by way of notes to financial statements, where an inflow of economic benefits is probable.

1.20 Inventories:

Inventories are valued at cost or net realisation value whichever is lower. Cost includes cost of purchase and other cost incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis. The Company is in the business of providing service of Mass Rapid Transport System and does not have inventories.

1.21 Current versus non-current classification

The Company presents assets and liabilities in the Balance Sheet based on current/non-current classification.

An asset is current when it is:

- Expected to be realised or intended to be sold or consumed in the normal operating cycle;
- Held primarily for the purpose of trading;
- Expected to be realised within twelve months after the reporting period; or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.
  All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

Operating cycle of the Company is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. As the Company's normal operating cycle is not clearly identifiable, it is considered to be twelve months.

The Company classifies all other liabilities as non-current.

1.22 New Accounting standards, amendments and interpretations adopted by the Company effective from April 1, 2023:

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31, 2023, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1, 2023, as below:

A. Ind AS 1 – Presentation of Financial Statements

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements. The company does not expect this amendment to have any significant impact in its financial statements.

B. Ind AS 12 – Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in Paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The company is evaluating the impact, if any, in its financial statements.

C. Ind AS 8

The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". Entities develop accounting estimates if accounting policy requires items in financial statements to be measured in a way that involves measurement uncertainty. The company does not expect this amendment to have any significant impact in its financial statements.

1.23 New Amendments not yet adopted by the Company

A. Code on Social Security, 2020:

The Indian Parliament has approved the Code on Social Security, 2020 which would impact the contributions by the company towards Provident Fund and Gratuity. The Ministry of Labour and Employment had released draft rules for the Code on Social Security, 2020 on November 13, 2020, and invited suggestions from stakeholders which are under consideration by the Ministry. The Company will assess the impact and its evaluation once the subject rules are notified. The Company will give appropriate impact in the financials statements in the period in which, the Code becomes effective and related rules to determine the financial impact are published.

The management assessed that the fair values of cash and cash equivalents, other bank balances, other current financial assets, trade payables and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values

The fair value of borrowings and other financial liabilities is calculated by discounting future cash flows using rates currently available for debts on similar terms, credit risk and remaining maturities.

Fair Value Hierarchy

Financial assets and liabilities measured at fair value are categorized into three levels of a fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement as follows:

Level 1 - Quoted prices (unadjusted) in active markets for identical financial instruments that the entity can access at the measurement date.

Level 2 - The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximize the use of relevant observable market input and minimize use of unobservable inputs.

Level 3 - If one or more of the significant inputs is not based on observable market input, the instrument is categorized in level 3 of fair value hierarchy

Below Financial Assets and liabilities are valued at fair value through Level 2 methodology.

Valuation Technique and process used to determine fair values

The fair values of Financial Assets and Liabilities above are calculated by discounting future cash flows using rates currently available on similar terms, credit risk and remaining maturities.

Note 29 : Financial Risk Management

Risk Management is an integral part of the business practices of the Company. The framework of the Risk Management concentrates on formalising a system to deal with the most relevant risks, building on existing Management practices, knowledge and structures. The company has developed and implemented a comprehensive Risk Management System to ensure that the risks to the continued existence of the company as a going concern and to the growth are identified and remedied on a timely basis.

Following are different types of risks:

(a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changed in market price, interest rate and foreign exchange rate. Market risk comprises three types of risk: interest rate risk, currency risk and market price risk.

Market Price risk
Market Price risk arise due to investment in Equity Instruments and Mutual Funds. The company do not invest in equity instruments and mutual funds. Thus, the company does not have any market price risk.

Interest rate risk
Interest rate risk arises due to changed in rate of interest. The Company does not have any long term borrowings with floating interest rate except in case of borrowings availed from AFD wherein the rate of interest is floating based on 6 month EURIBOR plus fixed margin of 1.25%. The company is therefore exposed to interest rate risk for borrowings with respect to AFD.

Foreign currency risk
Foreign currency risk arise due to changed in foreign exchange rates. The Company has foreign currency denominated loans and has foreign currency trade and other payables etc. and is, therefore, exposed to foreign exchange risk. The amount for which company is exposed to foreign currency risk are as follows:

(Amount in Lakhs)
