OUTCOME BUDGET 2026-27

The Outcome Budget 2026-27 is the tenth of its kind since the Government of Gujarat initiated an Outcome Budget in the year 2017-18. The Outcome Budget also aims at changing the perspective by shifting the focus from 'outlays' to measurable 'outcomes' and can be viewed as a tangible expression of the Government's priorities, performances, decisions and intentions. The budget publication no. 56 is attributed to Outcome Budget. The Outcome Budget establishes linkage between budgetary provision and socially viable development outcome across schemes and programmes.

In the context of UN 2030 Agenda of Sustainable Development Goals (SDGs), the State Government has prepared "Gujarat Sustainable Vision 2030" which comprises of State Indicator Framework (SIF). The schemes and programmes of Outcome Budget have been linked with State Indicator Framework. The progress of various development schemes is being monitored at highest level of the Government through CM Dashboard.

This publication will serve as a valuable reference within the framework of the Viksit Gujarat @ 2047 roadmap, contributing to the broader vision of Viksit Bharat @ 2047. It offers meaningful insights supported by tangible outcomes outlined for the next three financial years, thereby guiding progress towards these long-term development goals.

Generally, schemes having large outlays, schemes related to physical output such as construction and procurement, schemes intended to improve developmental indicators and schemes designed to extend subsidies or benefits to individuals, have been included. Thereafter indicators have been rationalized by the respective Department for each of these schemes and physical targets have been indicated for the next 3 years. These targets are projections and are subject to modifications based on actual requirements and

budgetary provisions of the relevant year. A special attempt has been made to indicate Macro Outcomes for each Department.

For the year 2026-27, Planning Division, General Administration Department has carried out extensive consultations with Departments to rationalize targets and priorities.

Another exercise that has been taken in tandem with the Outcome Budget is the revision of the Annual Development Programme to include the developmental objectives and strategies for each Department and the sector that they are dealing with. The schematic details such as the components and activities undertaken under the scheme, intended beneficiaries, the scale of assistance, if applicable, implementing agency, the funding pattern and the intended outcomes have also been articulated for these selected schemes and included in Part-II of the Budget Publication no. 35: Development Programme.

It is expected that Outcome Budget would help in decision making to arrive at a better understanding of the efficiency and effectiveness of Government spendings. This will also serve as a useful monitoring tool to track progress and ensure the effective achievement of the vision outlined in the Viksit Gujarat @ 2047 roadmap.
